The Revision Sawfly™ shield: proven to be the **top performing impact eyewear available**. Designed for fit, function and comfort, this unmatched level of protection is specifically designed for the military. The curved shield provides an unrestricted field of view and maximum ventilation, while the adjustable arms and head strap ensure a perfect fit, every time.

THE SAWFLY SYSTEM

- **LIGHTWEIGHT** Weighs only 1 ounce (28.8 grams)
- **RESILIENT** Lenses made of indestructible, optical grade polycarbonate
- **INTERCHANGEABLE** Lenses can be interchanged quickly for various light conditions
- **CONVENIENT** Lens shields lock securely and easily into the frame
- **COMFORTABLE** Soft-grip rubber tips keep the eyewear firmly in place
Soft nose piece on each shield
- **ADJUSTABLE** Arm length adjusts for precise fit under helmet
Adjustable head strap for optimal security
- **TOUGH** Scratch-resistant coating on both sides of shield
DEET resistant
- **UV PROTECTION** 100% protection from harmful UV-A and UV-B rays
- **EASY STORAGE** Convenient case keeps system pieces together (*deluxe kit only*)
- **PRESCRIPTION READY** Optional R_x insert available

SAWFLY EYEWEAR OFFERS EXTREME PROTECTION FOR EXTREME CONDITIONS

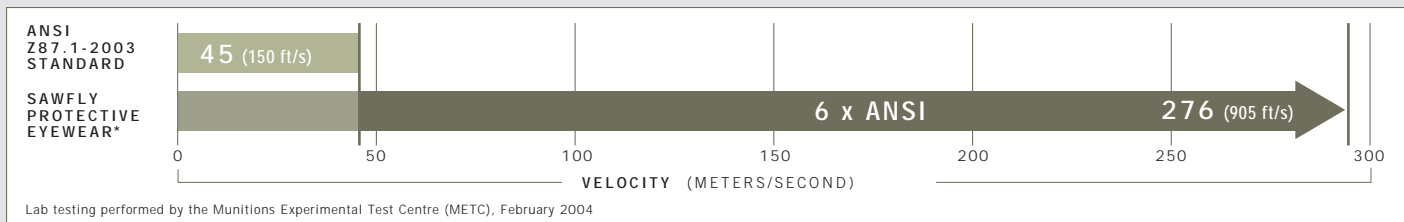

- Certified to ANSI Z87.1-2003 standard
- High velocity impact performance is **6-times greater** than required by ANSI Z87.1
- Certified to EN 166:2001 European Standard
- CE Approved
- Military approved: **NSN 8465-20-001-1700** (*regular size*) **NSN 8465-20-001-1699** (*large size*)

it's your vision. we protect it.

DON'T RISK YOUR EYESIGHT — OVER 90% OF EYE INJURIES ARE PREVENTABLE

On active duty or in training, protective eyewear is a must. The Sawfly's best-in-class protection surpassed other eyewear in rigorous impact testing, both in the lab and in the field.

*Ballistic test results reported above achieved on stand-alone testing of the polycarbonate shields.

TOUGH ENOUGH TO WITHSTAND A SHOTGUN BLAST FROM 32.8 FEET!

FIREARM Remington Mod. 1187 Semi-automatic .12 guage, 28 inch barrel, full choke
AMMUNITION Federal heavy load .12 guage 1¼ ounce #6 lead shot
VELOCITY 1300 fps ± 30 fps (396 m/s ± 9 m/s) at 32.8 feet (10 meters), chronographed
RESULT **22 strikes, no penetrations**

(Independent testing by qualified firearms instructor and competitive shooter – June 6, 2004)

OPTICAL TESTING

Sawfly eyewear has passed stringent military optical tests and it provides maximum visual clarity. Easy-to-change specialty lenses offer the ultimate defense against changing light conditions.

All lens shields provide high impact resistance and 100% UV-A and UV-B protection.

- CLEAR LENS Maximizes light transmittance. *Use indoors or at night.*
- SOLAR LENS Reduces extreme glare and squinting. *Use outdoors in bright conditions.*
- LOW-LIGHT LENS Provides high-contrast definition. Ideal for shooting. *Use during dull, cloudy, or hazy conditions.*
- LASER-PROTECTIVE LENS Available by special custom order. Wavelength(s) must be specified.
